Window Film

QDP Ceramic

The ultimate automotive window film from Global has it all: great looks, impressive performance and the protection of a lifetime limited warranty. Global QDP Ceramic incorporates ceramic technology to produce a metal free, color-stable window film that is ideal for demanding automotive enthusiasts.

QDP Nano Ceramic performance shades are spectrally selective - blocking infra-red heat while letting in visible light. These high visible light transmittance films are perfect for restrictive local tint laws or when you want solar and safety benefits without the traditional darker appearance.

Performance Specifications

	VLT	GR	TSER
QDP Nano Ceramic 86	86	6	27
QDP Nano Ceramic 80	78	14	42
QDP Ceramic 70	70	30	49
QDP Ceramic 50	51	44	51
QDP Ceramic 46	46	54	52
QDP Ceramic 42	42	54	53
QDP Ceramic 38	38	58	56
QDP Ceramic 33	32	65	58
QDP Ceramic 18	18	82	65
QDP Ceramic 05	4	96	66

VLT = Percentage of Visible Light Transmission

GR = Percentage of Glare Reduction

TSER = Percentage of Total Solar Energy Rejection

Published values are representative of typical production runs and are subject to normal manufacturing tolerances within industry standards.
